

hydraulic tractor mounted auger

This machine is designed for all orchard drilling and planting applications. It can be mounted on the front or rear of the tractor. Different auger flights available separately

standard features

- 1 meter horizontal displacement
- 1 meter vertical displacement
- adjustable drilling angle
- adjustable drilling speed
- auger can turn left and right
- control over push-pull cables into tractor cab
- hydraulic motor OMS 200 Danfoss
- max drilling capacity $\varnothing$ 300 mm
- double 3-point linkage

options

- hydraulic motor OMS 315 Danfoss
- electrical control instead of push-pull cables
- hydraulic top linkage
- drilling capacity $\varnothing$ 400 mm included OMS 315
