

ATLAS

The Atlas is the simplest machine in the range of platforms built by BAB

standard machine

diesel engine Kubota D902 3 cyl 21 hp fluid-cooled
wheels 10,0/75x15,3 8 ply traction
2 wheel driven and 2 wheel steering

hydraulic negative brake (parking)
hydrostatic driven

2 speed and neutral : first : 0 - 6 km/h

2 nd : 0- 12 km/h

platform length 4,2 meter - 3 bins 1,25 x 1,25 m
platform hydraulically opened and closed - left and right seperatly
width platform closed 1,6 meter - open 2,6 meter

options

air-compressor 650 liter with tank 50 liter
platform closed 1,8 meter - open 3,4 meter
rollers for bins , adjustable in width
