

standard sprayer

DUOTURB

- | | | |
|----------------------------|---|--|
| <u>pump</u> | * diaphragmpump 140 liter COMET |  |
| <u>mixing</u> | * dust hydraulic mixer in basket
* injector with venturi | |
| <u>wheel axle</u> | * double axle , fix under frame
* axle 60 mm with adjustable track |  |
| <u>wheels</u> | * tires 350/50-16 12 ply (4x) flotation | |
| <u>fans</u> | * lower: 1x propellor ø 800 mm , with 16 blades , adjustable pitch
2 speed gearbox and idle overdrive

* upper 2x propellor ø 700 mm , angle adjustable (electrical) air outlets
both , together , 80 cm in height hydraulic adjustable
gearbox with fix speed |  |
| <u>nozzles</u> | * lower part: 2x 6 brass double nozzle bodies with Albuz ATR nozzles
* top: left and right 2x 4 brass double nozzle bodies in airstream of air outlets | |
| <u>filters</u> | * 1 suction filter , 50 mesh , easy to reach - adjusted to pump flow
* 2 high pressure filters, 50 of 80 mesh, in backside |  |
| <u>control</u> | * 4 sections with 4 electrovalves , 27 watt
and general switch | |
| <u>pres.control</u> | * manuel |  |
| <u>pres.gauge</u> | * gauge 25 bar ø 100 mm klasse 1.0 | |
| <u>tank</u> | * fibreglass tank with content of 1500 or 2000 liter
* clean watertank to flush pump
* clean watertank for hand washing |  |
| <u>PTO-shaft</u> | * depending on drawbar
Weasler 2x double joint
or Bondioli single double joint | |
| <u>drawbar</u> | * straight drawbar with fork |  |
| <u>general</u> | * metallized frame
* lights for road traffic | |

options

pump

- * high-pressure , slow turning piston pump BAB 80 liter
- * brass diaphragmpump AR 135 litres

mixing

- * 2nd pump (centrifugal) for mixing in tank , hydr. driven by tractor

wheel axle

- * braked axle
- * swivel axles double 2000 liter
- single 1500 liter

drawbar

- * swivel hitch , heavy duty

nozzles

- * brass triple nozzle bodies a piece
- * drift reducing Albuz TVI nozzles a piece

pres. Control

- * elektrical pressure regulation valve

booms

- * double spraying booms bottom and top
